A CIRCLE OF SUPPORT AROUND EVERY CHILD YOU CARE FOR

JUNAID & WASSIA FAMILY FOUNDATION

All Services Provided Free of Charge

JWF's free community programs walk alongside your existing care framework - deepening connection, healing, and belonging for youth who need it most.

The children and youth in your care already receive vital, state-mandated services. JWF doesn't replace any of that - we extend it through group connection, peer belonging, and community-based healing that reaches what no individual session can.

A fuller picture of care

JWF's programs are designed to integrate naturally with the existing systems and professionals already supporting youth in your care.

State-Mandated Individual Therapy Existing
Clinical, one-on-one therapeutic services provided by licensed professionals - the essential foundation of formal care.

Caregiver & Family Support Existing
Case management, placement services, and caregiver guidance provided by your organization and the state.

JWF Community & Peer Support Layer Free - JWF
Group connection, peer counselling, wellness events, tutoring, sports, and mentorship - a wraparound layer of belonging and growth that deepens the work already happening.

WHAT WE OFFER

FOUR PROGRAMS. ONE SHARED MISSION.

Mental Health
The Compass Project

Trauma-informed group and peer-based therapy that strengthens what individual sessions begin - emotional regulation, identity, and resilience - through the power of shared experience and community.

Academic Support
Educate to Empower

Free one-on-one academic tutoring with a focus on confidence, school re-engagement, and GED preparation. Because a child who believes in their future is a child who keeps going.

Sports & Wellness
Dreams in Motion

Sports sponsorship that covers all costs - registration, equipment, and more - so every child can belong to a team, build discipline, and discover joy through play.

Mentorship & Futures
Military Mentorship

Structured guidance and mentorship for youth interested in a future in service - building direction, accountability, and a sense of purpose that extends well beyond care.

Who this is for? Made for the people closest to care

Foster Families & Caregivers	Foster Care Organizations	Youth Ageing Out of Care
Access free therapeutic and wellness support for the children in your home - and caregiver support for you.	Partner with us to extend your service offering at no cost to you or the families you support.	Mentorship, tutoring, sports, and peer community to support the transition into independent life.

Let's build a wider circle
